#### CITY COUNCIL RAISES SALARIES OF EMPLOYES

P. A. C. Infirmary Is Granted Increase of \$100-Committee On New Streets Makes Report.

That the members of the city administration were in a liberal frame of mule. The little child, who was nammind at the regular monthly meeting of the council Thursday night, is evidenced by the increases granted in the salaries of all the various city employes,-"H. C. L." being the reason of it. The meeting last night was well attended and with Mayor Evans presiding the following members were present: Councilmen Terrill, O'Neil, Golden, Allman, Powell and Mershon.

Dr. Homer W. Carpenter, pastor of the First Christian church, asked the divine blessing upon the constructive work the body is doing after which the a ayor called on the clerk for the mines of the last meeting together with eport of expenditures for the month of March.

City Collector Jesse Dykes reported \$265, collected during the month, distributed as follows: General fund, \$208.64; school fund, \$34.75; sinking fund, \$10.97.

Street Commissioner J. H. Allman reported expenditures of \$394 to cover labor and repairs. He further re-ported that due to repairs being made on the crusher and street machine, nothing much has been done on the streets during the month.

Chief of Police Devore attached a check to his report showing collection of fines amounting to \$260 during the

Upon motion of the Mayor, Councilman O'Neil was requested to make : statement to the council covering the trip to Cincinnati by representatives of the council and the Citizen's Committee, in connection with the street bonds. He said that they had called on the chief engineer of that city and gained some very satisfactory information in regard to street building and were able to get in touch with a highly competent engineer to look after the local job. He further stated that this committee had loaned the money realized from the bond issue to a Cincinnati house for 5 per cent interest which would save the city from paying any interest whatever on the money while waiting the street work

Upon urgent appeal of the commit tee in charge of the P. A. C. Infirmary institution, it was moved by Councilman Terrill that the amount appro priated to the Infirmary be raised from \$500 to \$600 per year. The ladies went away very much pleased with their efforts after thanking the Mayor and members of the council.

### **VOICES CONTEMPT** FOR FOE FIGHTERS

REPORTS OF FRATERNIZING BY AMERICAN AND FOE TROOPS DENIED BY RED TRIANGLE WORKER.

Chicago.-Reports of fraternizing of allied and foe troops following the signing of the armistice on the western front are denied in a letter from H. B. Stecher, Racine, Wis., received at the offices of the national war work council, Y. M. C. A., here.

Stecher was a Y. M. C. A. worker attached to the Ninety-first division. He served for more than six months on three fighting fronts-at St. Mihlel, in Flanders and the Argonne. Twice he was cited for bravery and awarded the D. S. C.

Before going to France to serve as a "Y" worker Stecher was associated with the Hamilton Beach Manufacturing company at Racine. Formerly he was a member of the California National Guard when he was living in Los Angeles, Cal. His parents, Mr. and Mrs. M. D. Stecher, live in Chi-

Referring to reports of fraternizing of the troops Stecher says: "Certainly there was no attempt or desire on the part of the men of our division to fraternize with our much-despised opponents, and had there been, the offcers would not have permitted it. As a matter of fact the guns were going right up to the time the armistice went into effect. You see, our boys have had a mighty good chance to size up the caliber of the other side, and had the Germans shown any indications of good sportsmanship in the fighting no doubt we would feel some little respect for them. Having been a doughboy myself in the past, and now having gone through all the fighting with my division, I believe my viewpoint is the same as that of the majority of our division, and, personally, I have the utmost contempt for the German soldier, his methods and his ideals."

### SERVICE OFFERED BY "Y"

Spread upon the records of the Third division, A. E. F., and just brought to the attention of the national war work council of the Y. M. C. A., is a general order issued by command of Major General Dickman, which "Y" officials have hailed as an emphatic answer to charges that Red Triangle workers had avoided the danger zones in France and had wrung exerbitant prices from the soldiers for the comforts which the association had sent overseas. General Dickman directed that a copy of the order be sent to every one of the thirty-four men and six women who went with the di-vision through the fighting of Chateau-Thierry and along the Marne, to St. Mihiel, and later into action north of Verdun and along the Meuse.

The Y. M. C. A. has made public General Dickman's order along with communication from Col. J. C. Rhea of another division which was in the St. Mihiel fighting. Colonel Rhea gave figures showing the large amount of supplies which were distributed in his division by "Y" secretaries without charge.

Chicago.—More than 700 Y. M. C. A. workers saw service with the soldiers of the American expeditionary force in the front lines during the last months of the war.

Frank M. Van Epps, seriously wounded while serving as a Y. M. C. A. worker in the Argonne, told of some of his experiences in a talk at the Y. M. C. A. college here:

On the way to France last April on the Oronzo, Van Epps and 56 other "Y" men narrowly escaped drowning when the ship was torpedoed by a German U-boat.

Van Epps was divisional secretary of the Y. M. C. A. outfit. He worked with the Fifth division until the armistice was signed. He was dressed up in a doughboy's uniform when he arrived here. They built bed of boxes of jam, with a tub of chewing tobacco for a pillow and lay

Half a mile back, an American battery was hammering the Germans, and two German airsplanes came over looking for the position. They let go two bombs which landed on each side of the barn. Soon came a third, which without pain in the stomach and struck the roof, bringing down a mass of rafters and beams and scattering shrapnel. Soldiers to Study.

Paris.-With the arrival of General Rees from Washington on detail from the war department to take charge of the army educational work, progress has been rapid along the lines laid down in the program submitted by the Lee Hill, George Ginter, Charlie Y. M. C. A. army educational commis-nter, Charlie Webber, Willard Will-slov, Text books required to satisfy the demands of the men for instruc tions are coming overseas rapidly, according to Prof. John Erskine of Columbia university, chairman of the "Y" commission; post schools are starting up at the rate of 40 to a division and groups of officers and men are being absorbed by French and British universities to the limit of their capacity.

General Praises Y. M. C. A. Paris.—There are some fools in the Y. M. O. A., according to Brig. Gen. J. P. O'Neil of the Ninetleth division. "Our Y. M. C. A. is everything to be desired," said the general. "Among the employees are some fools. One of them was such a fool that he would not stay away from the front line, and he got so tied up with Boche shells and other projectiles that we were forced to recommend him for a Distinguished Service Cross. That is a sample of the men you have sent to us. Please k this work up and whether I am com-manding this division or not, the things that you have done will make a lasting impression upon it."

It is always well, in any of its illnesses, to look for this cause. The diet may have to be changed, but before good can result from it, the bowels must be moved.

The mother has the choice of many medicines—cathartics, purgatives, bitter-waters, pills, physics, etc. But the little body doesn't need such harsh remedies for they wrench the system and do only temporary good, so often followed by an unpleasant

A better plan is to employ a mild, gentle laxative of which only a little is required. There is a combination of simple laxative herbs with pepsin sold by druggists under the name of Dr. Caldwell's Syrup Pepsin that thousands of mothers have used successfully for baby's constipation and its accompanying ills, such as belching, wind colic, restlessness, sleeplessness, etc.

The nursing mother will also find it ideal for herself, and it is especially important that she be free from constipation

Syrup Pepsin is guaranteed to do as promised or the druggist will refund the money. Thousands of cautious families have it in the house, secure against the little ills.

## To the men on the farm who need clothes this spring

THERE'S one thing you want to be sure of when you buy clothes—you want to know that they're good.

That isn't so easy if you depend on the looks of the clothes; they're all made to look nice-if they weren't nobody would buy them.

No, "looks" alone don't make good clothes—though style is an important part of it.

The big thing is the part you can't see; the tailoring inside; the interlinings; the all-wool fabrics. Those things give you the wear; the service.

At this store you can be sure you're getting the best of all of them; we sell Hart Shaffner & Marx clothes, which are as good inside as they look outside.

### Why Take Calomel?

Dr. Thacher's Liver & Blood Syrup will do all that calomel will do and without the "after effects."

Years ago, when people were bilious, when the liver got lazy and failed to do its work or the stomach was out of condition, calomel was the standby.

By and by the users of calomel found that the "after effects" of taking the drug were as bad and more often worse than the ailment for which it was

Dr. Thacher, in seeking a medicine to take the place of calomel—one that would do all the good that calomel would do, and yet leave none of its evil effects perfected Dr. Thacher's Liver & Blood Syrup. This was in 1852, and each year since has added to the confidence of those who have used it.

dence of those who have used it.

Miss Susie Brewer, of Chattanooga,
Tenn., tried calomel. She was suffering with a very serious cold and grippe and had no appetite whatever. After the calomel failed she tried Dr. Thacher's Liver & Blood Syrup. She felt better after taking three doses and she soon got entirely well. "I think Dr. Thacher's Liver and Blood Syrup is a wonderful medicine," she said, "and I am very thankful I tried it."

For nearly three quarters of a century this sterling preparation has been an "old stand-by" in thousands of homes in treating rheumatism, dyspepsia, indigestion and other stomach and liver complaints. It is a powerful tonic and blood purifier and can be used with the utmost confidence.

REPORT OF Y. M. C. A. IN CEN-TRAL MILITARY DEPARTMENT CONTAINS INTERESTING INFORMATION.

Chicago.-Uncle Sam's soldiers and sailors go to church. Figures showing attendance at religious services in Y. M. C. A. huts in military camps of the central department prove it.

Attendance at the religious meetings and Bible classes held in the huts between May 1, 1917, and December 31, 1918, was more than 5,280,000.

A. H. Lichty, executive secretary of the central department of the national war work council of the Y. M. C. A., has issued a report covering statistics of the Y. M. C. The number of letters written in huts in the 33 military camps totaled 62,798,410. The total attendance was 60,663,806.

Movies were the most popular feature of the "Y" service in the camps. The attendance at the 12,496 motion picture shows was 5,979,303, an average of more than 400.

The "Y" educational features were popular. In the 20 months 7,570 lectures were heard by 2,202,810 soldiers and sailors. The 68,272 classes of various kinds drew 1,394,418 and the 982 science and art clubs 62,530. For the American Library association the "Y" passed out 1,423,668 books.

OWNER'S STATEMENT

I found Mary Ramsey the finest and best mare in my locality to breed to Star McDonald, a fine saddle stallion for my own use, when the colt \_came, a chestnut, with good legs and good saddle lines I thought my venture a success. But before the colt was weaned, a stag broke into the pasture with the mare and foal and almost eat the colt, he bit him and bruised him terribly and when the colt came to life, he was minus one eye. He proved to be a fine walking horse, Eli persuaded a few of our neighbors to breed to him. The colts all came walking. Eli claimed and collected what little was que. Since his colts began to show (oldest three years old), everybody wanted to breed to him. Eli is too old to attend to him and I have not the inclination. You will see a handsome well-
